200 Canal St.,

New York, April 1st, 1886.

TO + THE + TRADE:

In making up my Catalogue for the Current Year, I have made an effort to make it even more full and complete than ever before.

I have increased my line of goods since my last issue, and now in addition to making all my

SPRING BEDS, MATTRESSES,

WIRE BEDS, ETC.

I am manufacturing my own Curled Hair from the raw stock, and with my improved Feather Machinery, noted on another page, think I am in position to compete with any dealer in the country both in quality and price.

Thanking you for past favors, and soliciting a continuance of the same,

I remain,

Yours very truly,

FRANK A. HALL.

TERWILLIGER & PECK, 37 WEST 14TH ST., NEW YORK.

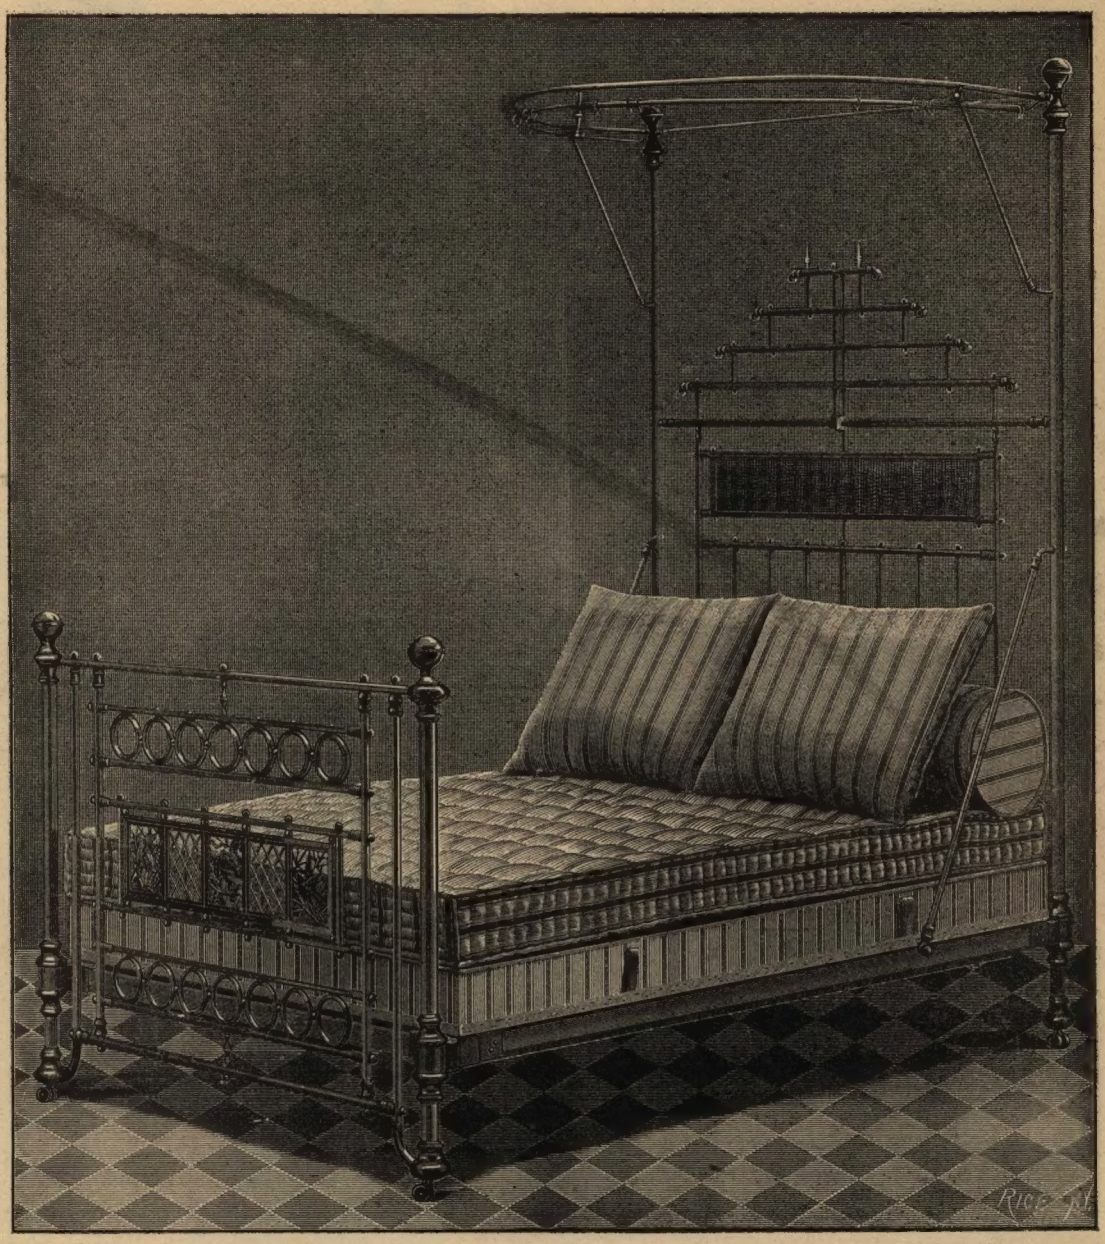
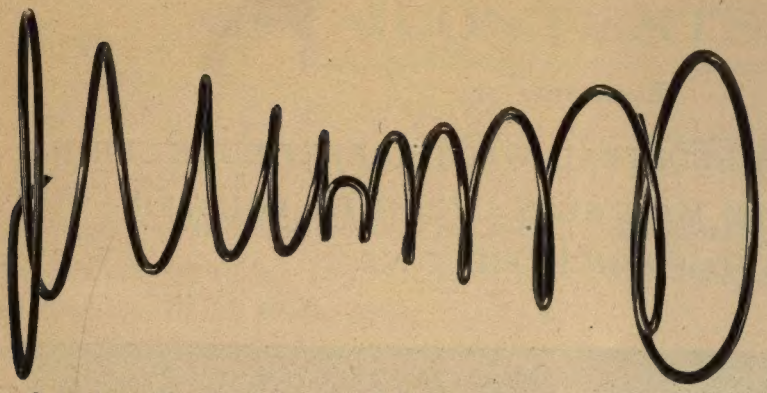
ENGRAVING OF

BRASS HALF TESTER BEDSTEAD WITH RABBET-EDGE SPRING,
IMPERIAL EDGE MATTRESS, CYLINDER BOLSTER,
AND FRENCH PILLOWS.



A FULL SUIT OF BEDDING

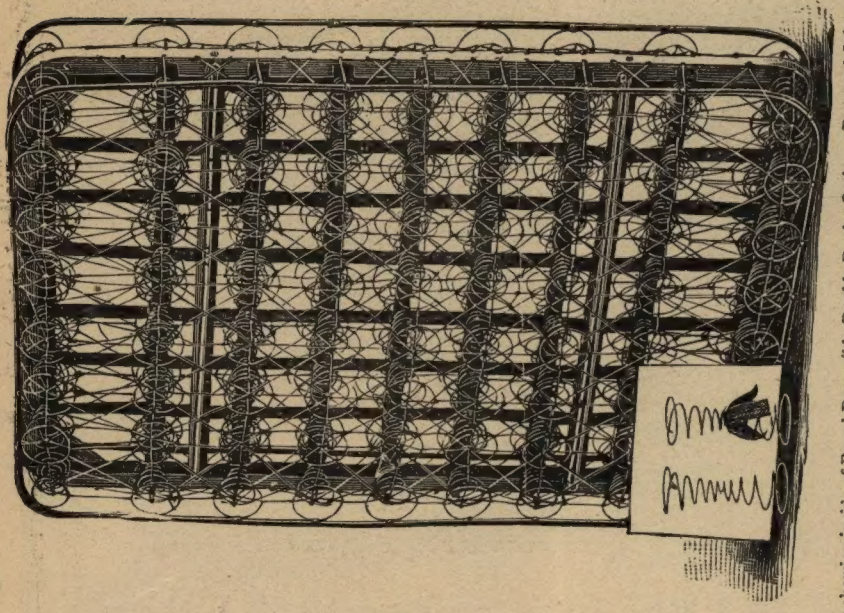
Made in my Factory.



Cut of my Patent Spring, used in the Royal Reversible Double Border Spring.

Section of Webbing showing the Burr and Eyelet at the intersection.

Royal Reversible Double Border Spring Bed.



Cut showing inside of Royal Reversible Double Border Spring. Patented July 24, 1877.

The Royal Reversible is made with a strong central frame, with braced corners, over which webbing is stretched lengthways and crossways; in the squares formed by the webbing an eyelet and burr is securely fastened, through which my patent spring is coiled so that the central bend or bearing loop is secured at the centre, which makes the only permanent fastening without the aid of strings or straps; it is then corded four times lengthways, crossways and diagonally, after which rattan is securely fastened to the springs on each side. Covered with burlaps, upholstered in tow, and entirely enclosed in best ticking. In this bed I use patent 15 coil steel springs and corner springs. I claim this to be the best bed in the world, without exception—and it is so acknowledged by the trade. The Royal Reversible received over all other competitors the only medal of excellence awarded in the Industrial Exposition, New York, 1878 and 1879.

Royal Reversible Double Border Spring Bed,

Complete,

Patented July 24, 1877.

None genuine unless stamped:

Royal Reversible Double Border Spring,

With Date of Patent Underneath.

Weight of 4 feet 4 inch - 75 Lbs.

THE

METROPOLITAN SPRING BED

IS MADE WITH A

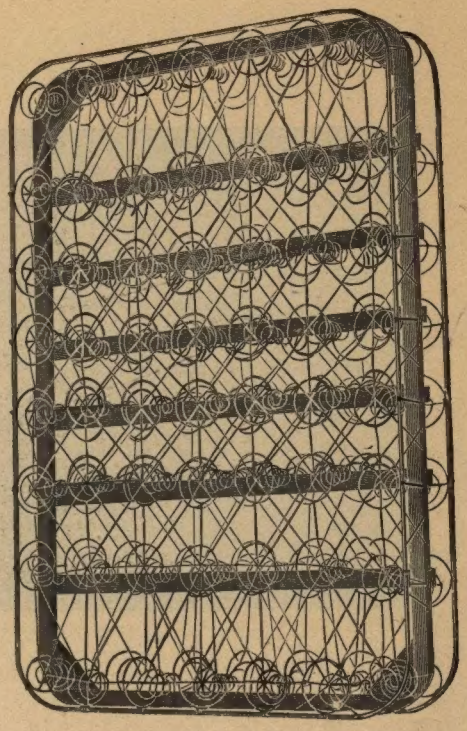
LIGHT CENTRE FRAME ON WHICH

THE SPRINGS ARE SUPPORTED,

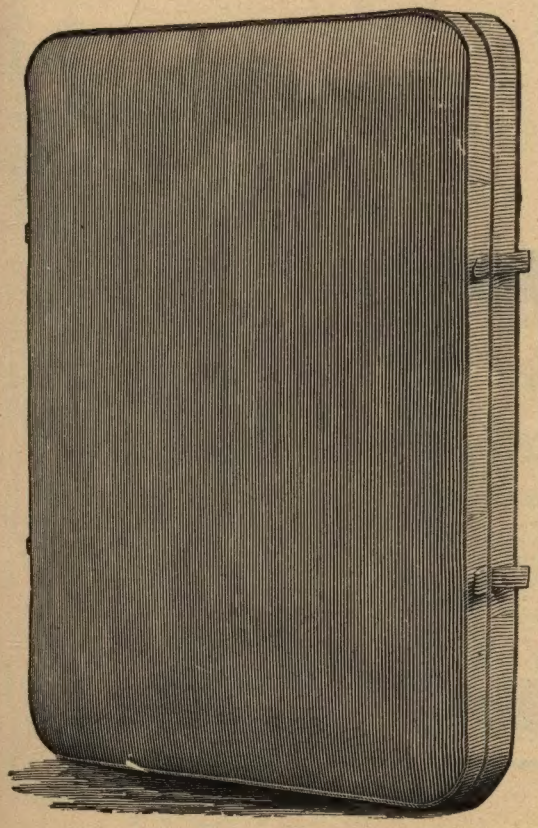
AND HAS A RATTAN FLEXIBLE EDGE,

IS UPHOLSTERED IN TOW,

AND COVERED WITH YORK TICKING.



Metropolitan Before Covering.



Metropolitan Complete.

THIS IS A

GOOD BED,

OF THE

SAME APPEARANCE EXTERNALLY,

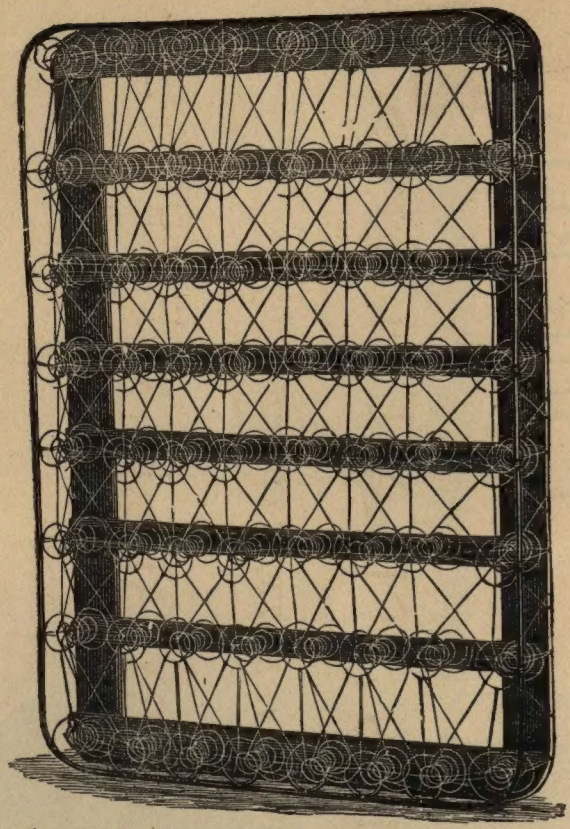
BUT LOWER IN PRICE,

THAN

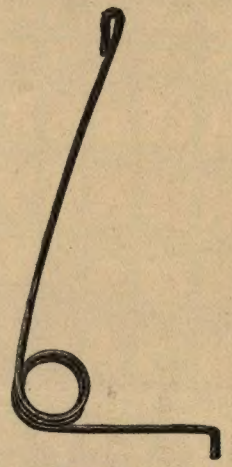
THE REGULAR DOUBLE BORDER.

Weight of 4 feet 4 inch - 78 Lbs.

Flexible Edge, Half Border Spring Bed with Grasshopper Springs on Sides.



Cut showing inside of Flexible Edge, Half Border Spring Bed.



Cut of Grasshopper Spring used on sides.

Flexible Edge, Half Border Spring Bed Complete, with Grasshopper Springs on side.

In this Bed I use Spiral Steel Springs, securely fastened to the frame by double pointed staples, corded four times—lengthwise, crosswise and diagonally—covered with burlaps, upholstered in fine tow, with rattan edge which is braced laterally with Grasshopper Springs—doing away with the old-fashioned box sides—entirely enclosed in York ticking, or Fancy ticking when so ordered.

The great success I have had with this Bed proves its superiority over all others of this description.

THE BEST HOTEL BED IN THE WORLD

None genuine unless stamped "Flexible Edge, Half Border."

AT A SMALL ADVANCE IN COST, I MAKE THIS BED WITH JAPANNED CAST STEEL SPRINGS.

Weight of 4 feet 4 inch - 70 Lbs.

Rabbet Edge Half Border Spring Bed.

ESPECIALLY ADAPTED FOR USE ON

BRASS AND IRON BEDSTEADS.

This bed is made with a close-fitting shelf or seat, flush with the side rails of the bed, which makes a neat fit.

The internal construction and the upper edge is similar to the Flexible Edge Half Border.

Weight of 4 feet 6 inch - 67 Lbs.

BUY ONLY

HALL'S FEATHERS,

WHICH ARE TREATED BY THE

STEAM AND DRY AIR BLAST PROCESS,

—AND—

Machine Picked, Free from Quills.

WOVEN WIRE MATTRESSES.

FABRICS. - - In all my Fabrics, which are woven by experienced hands, I use only the best make of tinned Steel Wire.

FRAMES. - - My Frames are of thoroughly seasoned Maple, and are contracted for, many months in advance of my requirements.

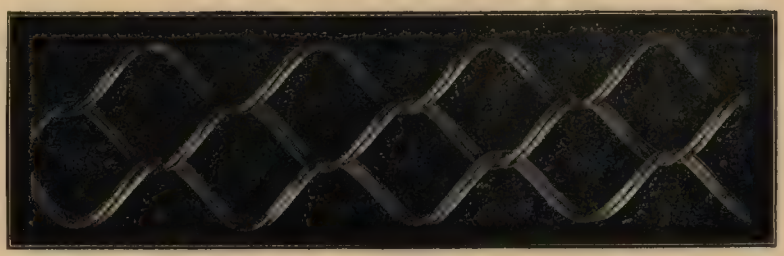
SPRINGS. - - For all Helical Springs, used in my Swinging Mattresses, I stipulate that they shall be thoroughly tempered.

CASTINGS, ETC. All Castings are of best Gray Iron; all of my hands engaged in the manufacture of these Beds are men of long experience in this class of work.

¼ inch × ⅝ inch, Split Weave.

¼ inch × ⅝ inch, Double Weave.

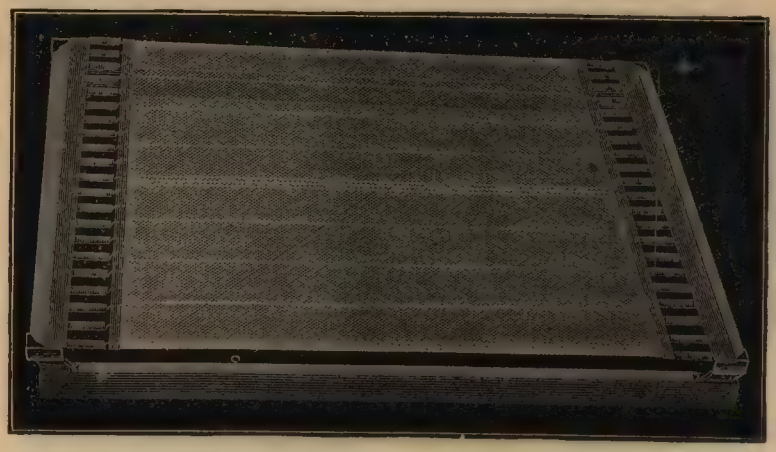
⅜ inch × ⅝ inch, Double Weave.



⅜ inch × ¾ inch, Double Weave.

IN THE ABOVE CUTS I SHOW THE FULL SIZE OF COIL AND DIFFERENCE IN PITCH USED IN MY VARIOUS WOVEN WIRE MATTRESSES. THE COST OF A FABRIC IS DETERMINED BY THE NUMBER OF LINEAL FEET OF WIRE USED IN ITS CONSTRUCTION, AND THE SMALLER THE PITCH AND THE LESSER THE DISTANCE BETWEEN THE CONVOLUTIONS, THE MORE WIRE IS CONSUMED.

Size of Mesh,
¼ inch × ⅝ inch.



Split Weave;
No. 20 Wire.

Swinging Woven Wire Mattress.

WITH TEMPERED HELICAL SPRING ENDS.

Weight of 4 feet 4 inch - 69½ Lbs.

Size of Mesh,
⅜ inch × ⅝ inch.

Double Weave;
No. 21 Wire.

No. 2 Swinging Woven Wire Mattress.

WITH TEMPERED HELICAL SPRING ENDS.

Weight of 4 feet 4 inch - 56 Lbs.

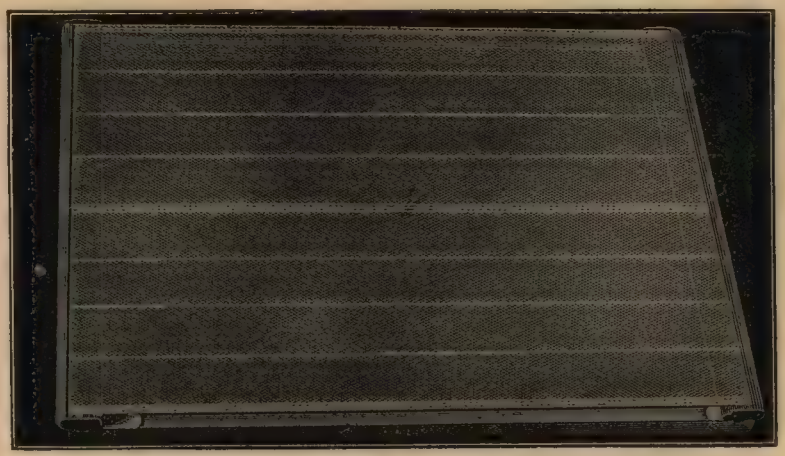
Size of Mesh,
¼ inch × ⅝ inch.

Split Weave;
No. 20 Wire.

"Eastern" Woven Wire Mattress.

Weight of 4 feet 4 inch - 67 Lbs.

Size of Mesh,
¼ inch × ⅝ inch.



Double Weave;
No. 20 Wire.

Puritan Woven Wire Mattress.

Weight of 4 feet 4 inch - 58 Lbs.

Size of Mesh,
⅜ inch × ⅝ inch;

Double Weave;
No. 20 Wire.

Hall's No. 1 Woven Wire Mattress.

This bed has not quite as closely a woven fabric, but has equally as good a frame, and in every other respect is equally as well made as the EASTERN. I think I can safely say, judging from the number I have manufactured and sold the past two years, there is no bed on the market for the same price that equals it either in appearance or quality.

Weight of 4 feet 4 inch - 60 Lbs.

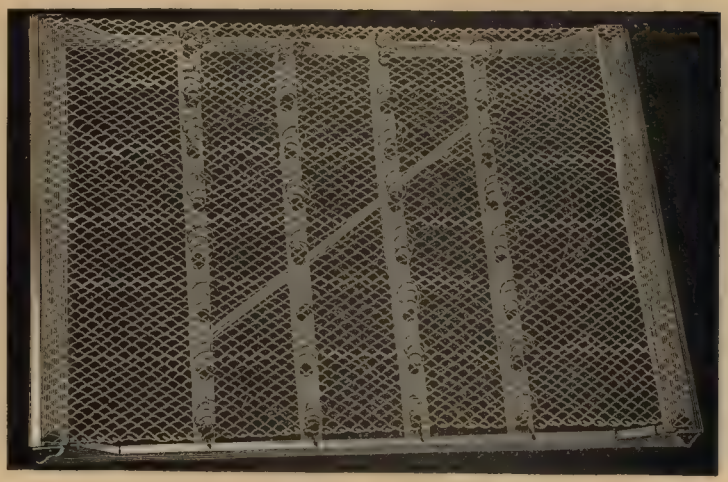
Size of Mesh,
½ inch × ¾ inch.

Double Weave;
No. 21 Wire.

Eastern No. 2 Woven Wire Mattress.

Weight of 4 feet 4 inch - 56 Lbs.

Size of Mesh,
½ inch × ¾ inch.



Double Weave;
No. 20 Wire.

Telephone No. 1 Woven Wire Mattress.

Made with four rows of tempered Steel Springs under Wire Fabric, which prevents sagging. A very comfortable bed.

Weight of 4 feet 4 inch - 49 Lbs.

Size of Mesh,
½ inch × ¾ inch.

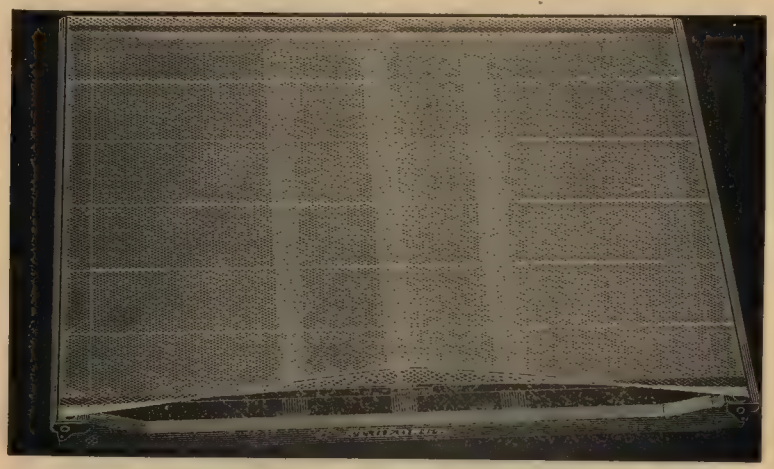
Double Weave;
No. 20 Wire.

Telephone No. 2 Woven Wire Mattress.

Made the same as Telephone No. 1, only with three rows of tempered Steel Springs.

Weight of 4 feet 4 inch - 47 Lbs.

Size of Mesh,
½ inch × ¾ inch.



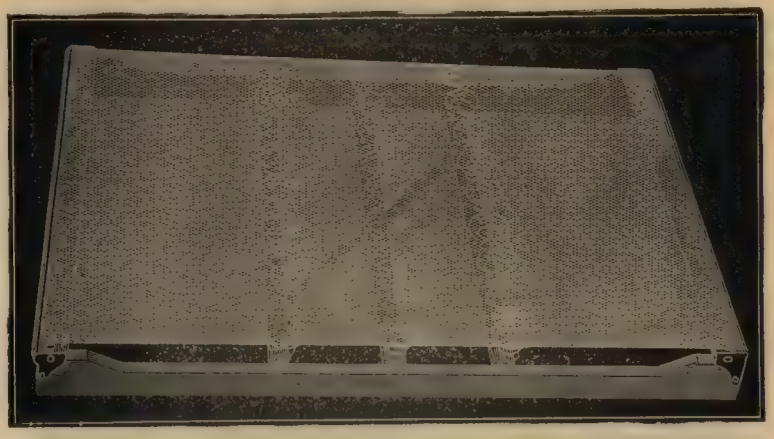
Double Weave;
No. 21 Wire.

St. George Woven Wire Mattress.

This bed is made of the same pattern as Telephone No. 2, and with the device for supporting the fabric at the sides, of an iron strip connected with a helical spring at the centre, in place of the chains. In the engraving, the edge of the fabric is turned up to show this device.

Weight of 4 feet 4 inch - 57 Lbs.

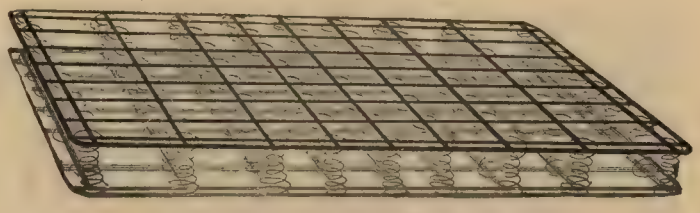
Size of Mesh,
½ inch × ¾ inch.



Double Weave;
No. 21 Wire.

"A. N. F." Woven Wire Mattress.

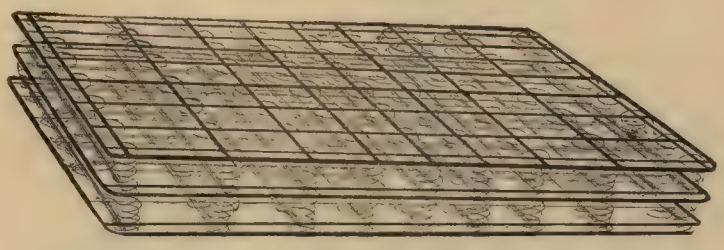
Weight of 4 feet 4 inch - 46 Lbs.



United States Single Deck Spring Bed.

Made from Slat Iron and Steel Springs coated with tin.

Weight of 4 feet 4 inch - 31 Lbs.

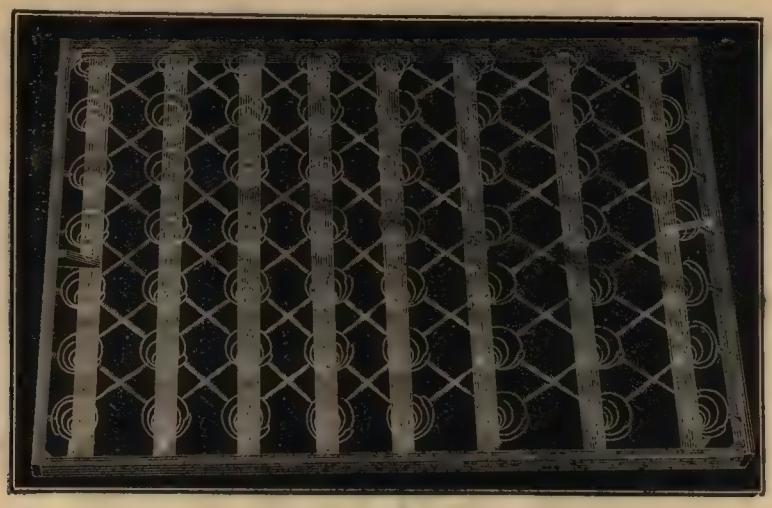


United States Double Deck Spring Bed.

Made of same material as above.

Weight of 4 feet 4 inch - 45 Lbs.

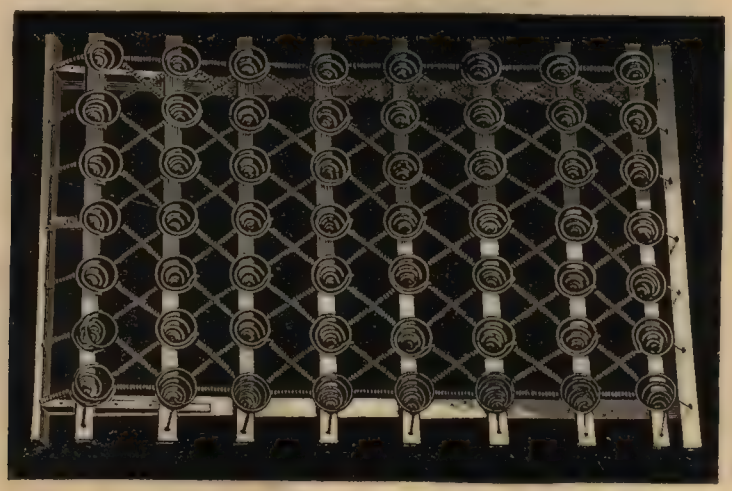
The United States Bed should be crated for shipping



Star Bed.

This bed is made with 56 spiral springs connected with a very fine coiled wire, set in a dove-tailed finish box, with sides 4 inches high, and slat bottom.

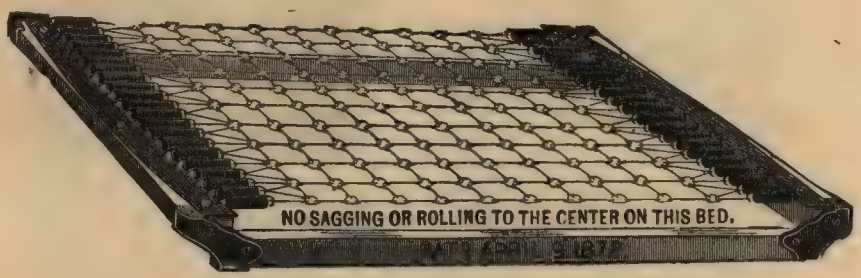
Weight of 4 feet 4 inch - 41 Lbs.



Lincoln Bed.

This Bed is of similar construction to the Star Bed, having no box around the sides, and having the cross slats fastened to two strips running lengthwise of the bed. It also has a raised head.

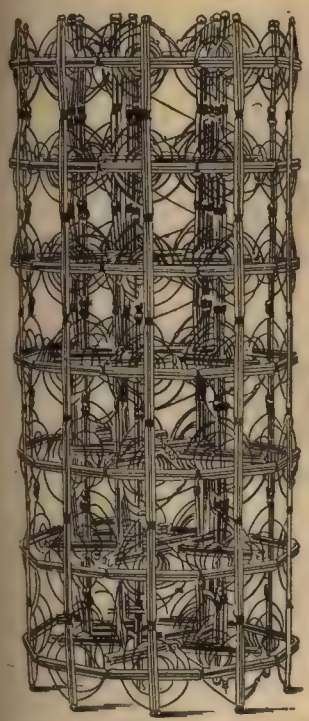
Weight of 4 feet 4 inch - 35 Lbs.



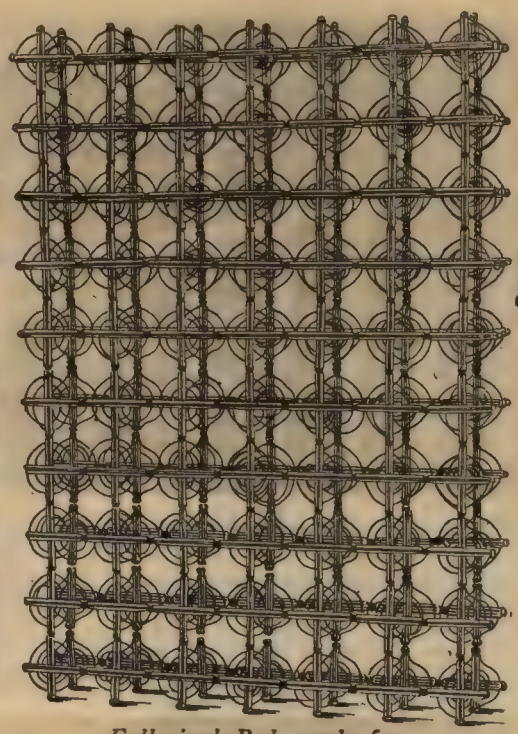
National Wire Mattress.

Sold either set up, as above, or K. D. and packed in a box at same price.

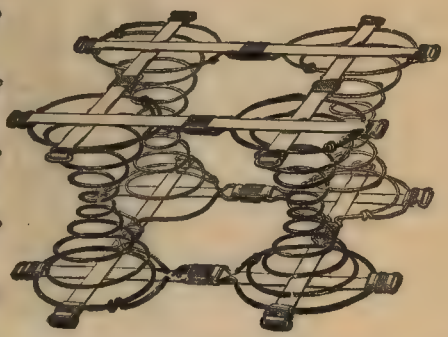
Weight of 4 feet 4 inch, set up, - - - - 68 Lbs.
" " " K. D. and boxed, - 98 Lbs.



Full sized Bed rolled for shipping.



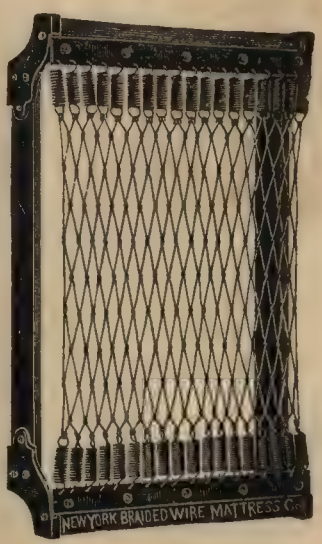
Full sized Bed, ready for use.



Four Springs, showing the principle of connecting a large number for full sized Bushnell Spring Beds.

Bushnell Spring.

Weight of 4 feet 4 inch - 26 Lbs.

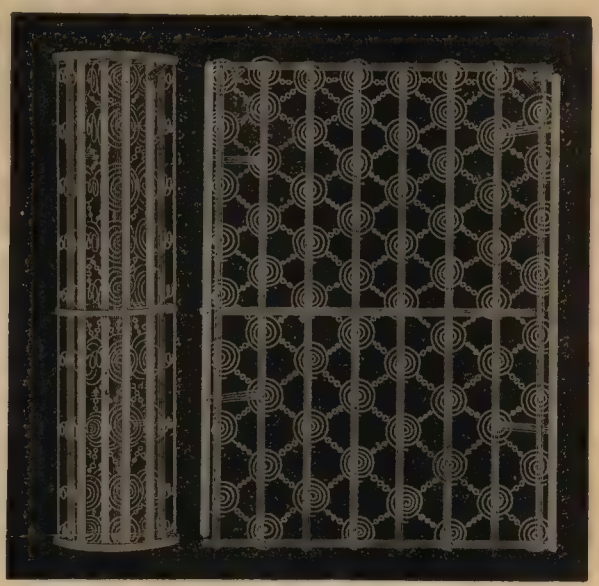


The New Braided Wire Mattress.

Packed in case 6 feet×7 inch×9 inch.

Sold either set up or knocked down and boxed, at one price.

Weight of 4 feet 4 inch, set up, - 87 Lbs
" " " K. D. and boxed, 76 Lbs.



Rolled up for shipping.

Opened out ready for use.

Roll-up Spring.

This bed is made entirely of metal, with springs riveted to the iron slats.

Weight of 4 feet 4 inch - 29 Lbs.

ALL COTS AT MANUFACTURERS' PRICES.

Crib folded.

George's New Folding Crib.

2 feet × 4 feet. 2 feet 6 inch × 4 feet 6 inch.

Weight of 2 Feet 6 inch - 26 Lbs.

The Rockaway.

Something New.—Servant's Comfort.

3 feet wide. 3 feet 6 inch wide. 4 feet wide.

An all Maple Bedstead, easily set up, and having a spring slat bottom complete. Knocked down for shipping. Odd sizes can be made to order.

Weight of 3 feet - 51 Lbs.

The Argyle.

3 feet wide. 3 feet 6 inch wide. 4 feet wide.

The "Argyle" is similar to the above, except that it is more ornamental, and is provided with Howe's Celebrated Berth Bottom Spring.

Weight of 3 feet - 60 Lbs.

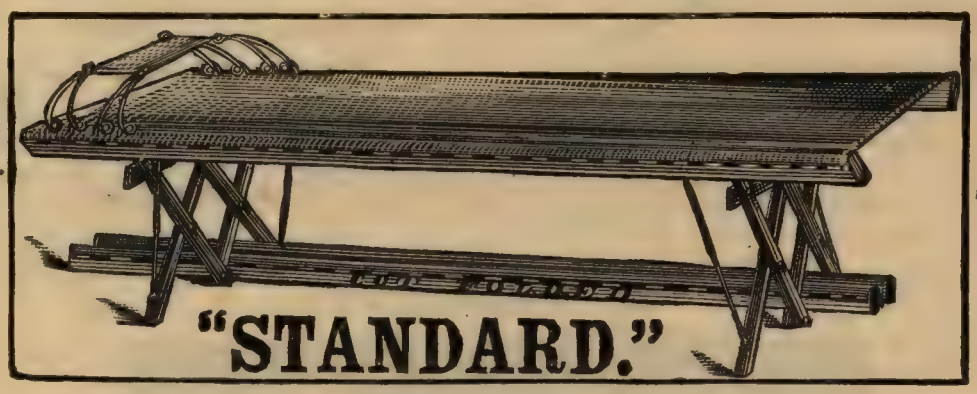
CANVAS COTS AT MANUFACTURERS' PRICES.

Champion.

I challenge comparison with any and all inventions of the kind for lightness, compactness, durability, strength and facility in handling. Give it a trial.

Weight, - 15 Lbs.

I AM SOLE AGENT FOR THE ABOVE.



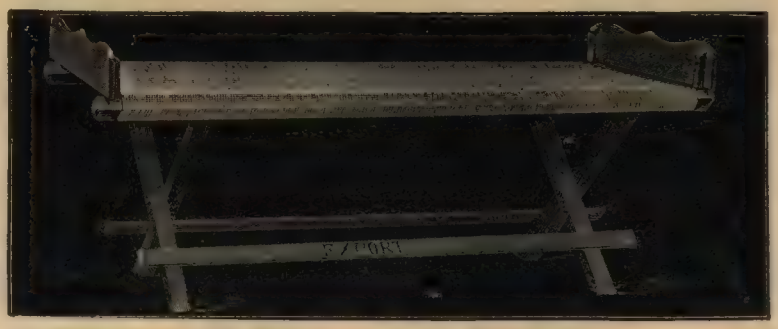
The Standard.

"The Standard" opens and closes on entirely new folding principles. *Self-fastening, and done instantly.*

"The Standard" is not equalled in dimensions by any other Folding Cot in the market, being 6 feet 4 inches long; folds into a bulk of one-half a cubic foot.

The supports of the "Standard" are arranged as a truss, with four rivets at the intersection to receive the strain, the space between rivets being very short, which makes it much stronger than any other Folding Canvas Cot in the market.

Weight, - 12 Lbs.



Cross-Leg Canvas Folding Cot.

3 feet×6 feet 5 inch.

This Cot is designed for the Southern and Central American trade. It is made of Yellow Pine, which is insect proof, with extra heavy frame and canvas; is largely used by contractors in hot climates. The canvas stands 28 inches from floor when in use.

Weight, - 45 Lbs.

Case's Patent Folding Bed and Settee Combined.

CANE SEATS AND BACKS. CANVAS BED BOTTOM.

Specially adapted for warm climates.

I am the Sole Agent in the United States for the Millville Works. Export houses should carefully note advantages of above.

Weight of 2 feet 6 inch - 35 Lbs.

The Improved Patent Step Ladder and Chair Combined.

Weight - 12 Lbs.

Address orders to FRANK A. HALL, Sole Agent for the Manufacturer, New York City.

Folding Beds are packed *four* in each box. Step Ladders are packed *eight* in each box. Orders for less than *four* beds or *eight* step chairs will be subject to charges for boxing or burlaps.

TO THE TRADE.

From this time your orders for the folding bed and settee combined, with step-ladder chair, manufactured by us, will be filled at our reduced rates by FRANK A. HALL, New York, who alone is authorized to act and represent us among the trade.

MILLVILLE WORKS,

Millville Depot, Pa., Sept. 29, 1879. JOHN DEMING, *Agent.*

IMPORTANT TO THE TRADE.

You will note by the above that I have made full and complete arrangements for the sale of the various articles manufactured by the Millville Works. These goods have stood the test for the *last ten years in this country, South America, Mexico and Cuba*, where they have gained an extensive and favorable notoriety. The goods are made in the strongest and best manner, and are without doubt the *most economical combined Bed and Settee* in the market.

New York, Sept. 29, 1879. FRANK A. HALL, NEW YORK.

Pine Hair Mattresses and Pillows.

These goods are made from the Needles of the Pine Tree, and are so prepared as to be free from pitch, while retaining all the hygienic qualities of the pine balsam.

Especially recommended for rheumatism, neuralgia, headache, etc., and for growing children.

N. B.—A four feet six inch mattress should weigh not less than fifty pounds, and smaller sizes in proportion. Pillows, four to five pounds. Cushions, three to five pounds.

I make a specialty of Pure Hair Mattresses. I do not make, nor do I keep in stock, No. 2 Hair of any description.

AT LAST

I HAVE SECURED A MACHINE WHICH TAKES ALL THE QUILLS OUT OF FEATHERS.

I HAVE BEEN LOOKING FOR THIS IMPORTANT INVENTION EVER SINCE I STARTED IN BUSINESS, AND HAVE PAID LARGELY FOR EXPERIMENTS.

NOW COMES A CAREFUL GERMAN FEATHER MAN FROM THE GREAT WEST, AND SELLS ME THE EXCLUSIVE RIGHT FOR SEVENTEEN YEARS TO USE IN THIS VICINITY THE ONLY MACHINE EVER INVENTED WHICH WILL ABSOLUTELY SEPARATE THE QUILLS FROM THE FEATHERS.

IT IS NOW IN WORKING ORDER IN MY FACTORY, AND ACCOMPLISHES ALL THAT IS CLAIMED FOR IT, AND ITS RESULTS MAY BE SEEN IN MY

EXTRA CHOICE,

AND

SELECTED PRIME,

Grades of

NO DUST.
NO ODOR.
NO QUILLS.

STEAM AND DRY AIR BLAST FEATHERS

NO ANIMAL MATTER.

MACHINE PICKED.

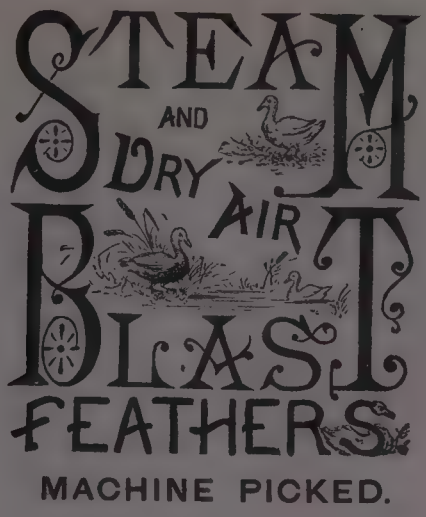
If you want the best, buy only the above brand of feathers.

HALL'S NEW PROCESS.

NO DUST.

NO ODOR.

NO QUILLS.



NO ANIMAL MATTER.

MACHINE PICKED.

My new process for curing Geese Feathers, and rendering them absolutely sweet and free from quills, dust, odor and all animal matter, combines all the latest improvements in this direction.

The washing process, with hot water, advocated by some, is not the best way to treat them, as it destroys the life of the feathers.

I use LIVE STEAM at a pressure of sixty pounds to the square inch, and a BLAST of SUPERHEATED DRY AIR, which thoroughly dries the Feathers in a very brief space of time, and gives to each separate Feather and all the Down, its full elastic filling power.

The QUILLS are all thrown out by a new PATENTED MACHINE, (for which I own the exclusive right for this territory,) and you receive a Soft Elastic Feather, sweet, clean and downy, which cannot fail to fill all requirements.

The loss in dirt and refuse by this process is very large, and I know that if you will give these Feathers a fair trial, you will be convinced of their cleanliness and economy above any offered, and will handle no other.

READ THIS

Before setting up an Iron or Brass Bedstead.

Stand the head piece against the wall, and put in the long side bars, noting carefully the corresponding marks on the same and the corner posts; then, having your foot piece in proper position, raise your side bars and drop the ends into their sockets in the foot board, and tap them firmly into place with a wooden mallet.

The iron slats and the studs both in the head, foot and side bars are all numbered. Put in the long ones first, according to the numbers on each, and then interweave the short ones and place the ends over the studs, and when all are on, turn the studs with the wrench as far as they will go.

Place the iron stretcher bar in proper position in the centre, and spring it into place by pressure.

Do not remove the wrappings from the brass work until it is set up. It is all lacquered and may be kept bright by wiping with a chamois or soft dry cloth.

☞ BOXING OR CRATING CHARGED AT COST.

Wool

Lap

Mattresses.

PURE WHITE WOOL LAP MATTRESSES.

THE HOWARD MILLS,

FOR WHICH I AM SOLE AGENT,

Have put in Machinery for making

LAPS

— OF —

PURE FLEECE WOOL,

From which I am making

MATTRESSES

OF THE FINEST GRADES OF TICKING AND OF THE BEST WORKMANSHIP.

These Mattresses, in France and other Continental Countries, have the preference over any other, on account of their Superior Elasticity. The cost is high, but that is true of all luxuries

I make these up in

THE FINEST GRADE AND NEWEST SHADES OF

"Mikado" Tickings.

This Wool is thoroughly scoured and carded, the same as it would be for Spinning and Weaving.

Cotton Mattresses, Pillows and Bolsters.

I am Sole Agent for THE HOWARD MILLS, which is now manufacturing a line of very superior

COTTON LAP MATTRESSES,

which I offer to the trade at low prices

FITS OVER THE FEATHER PILLOW.

I am Agent for this Invention.

THE SPRING BEDS

WHICH HAVE REALLY THE MOST INTRINSIC VALUE, ARE MY

ROYAL REVERSIBLE DOUBLE BORDER SPRING

AND MY

FLEXIBLE EDGE HALF BORDER SPRING.

The first named can be used either side up, or either end at the head. Made as they are, of steel spiral springs, corded crosswise, lengthwise and diagonally, well secured to a light frame, and with an elastic edge, they adjust themselves to the outline of the body, and will do more to recuperate exhausted nature during the hours of sleep than any bed made in the world.

You can safely recommend them to your most fastidious customers as being THE BED which they have been looking for.

Our Flexible Edge Half Border is in a large number of the leading Hotels of the country, from Maine to Minnesota, and is known to all Hotel men as the bed which gives both proprietor and guest the most satisfaction.

See Price List for our assortment of ready-made

DON'T FAIL TO ORDER HALL'S NEW BRAND OF

FEATHERS

ALL MACHINE PICKED AND STEAM AND DRY AIR DRESSED.

Factory, Nos. 120 and 122 Baxter Street.

EIGHT FLOORS, 50x90 FEET, WITH IMPROVED MACHINERY.

FREIGHTS.

It is a Rule of the Railroad Companies never to make a charge for carrying Goods for less than 100 lbs.; for this reason it is always better to make up an order of at least 100 lbs., or if you need a lesser quantity, let it be ordered by Express, which is the cheapest way for small lots.

Two Wire Beds will always arrive in better shape than a single one, for the reason that the fabric of each bed is protected when they are secured together.

Should Customers prefer, Wire Mattresses may be crated at a small expense. We only crate them WHEN SO ORDERED.

The principal routes grade Feathers, Wire Mattresses, Spring Beds, Mattresses, &c., in one class, and Hair in sacks, Ticking in boxes or bales, Spring Beds knocked down, &c., at a lower rate, while Moss, Tow, Burlaps, Webbing, Hair in rope, &c., is taken at a still cheaper rate per 100 lbs. The careful merchant will look to these things, and when ordering, will naturally make up not less than 100 lbs. of a class, especially of Feathers, as the R. R. Companies will charge as much for carrying 50 lbs. or less as they will for 100 lbs.

SMALL LOTS ARE CARRIED CHEAPER BY EXPRESS.

Throughout this Catalogue I have given under each article the actual weight of one size, as a guide to customers in determining the quantity to order to make freight charges come within bounds.

TO THE TRADE:

ALL GOODS DELIVERED FREE ON BOARD.

BEDDING SHIPPED

Will be packed in seventy-six inch Burlaps, for which I charge 15 cents per yard.

If returned within fifteen days, freight prepaid, will be credited as charged.

I do not make this charge with the idea of selling the Burlaps, but expect you to return them, charges prepaid.

In all cases when you return Burlaps, please mail me a BILL OF SAME, and state by what route shipped.

IRON & BRASS BEDSTEADS WILL HAVE TO BE BOXED,

FOR WHICH THERE IS AN EXTRA CHARGE. ☞ WE CANNOT TAKE BACK THE BOXES. ☜

I neither make, nor do I keep in stock, No. 2 Hair of any of the grades of Drawings, or S. A. Hair.

No exchange of bedding allowed. All claims for deductions must be made within ten days.

MY TERMS ARE: { 2 per cent., 10 days. / Net, - 30 days. } POSITIVELY NO OTHER DISCOUNT ALLOWED.

All accounts standing after thirty days will be drawn for at sight, which I expect to be honored.

PROMPT PERSONAL ATTENTION GIVEN TO ORDERS BY MAIL.

ANY MISTAKES MADE BY ME, WILL BE PROMPTLY RECTIFIED.
